

Impact in Tennessee of the Affordable Care Act (ACA) (from OPE, U.S. Department of HHS)¹

Coverage Gains in Tennessee thanks to the ACA (2010-2015)

- 266,000 people gained coverage, including
- 47,000 young people who gained coverage by staying on their parents' plan until 26 years of age
- An overall (even w/o Medicaid expansion) 4.1% decline in the uninsured.

Gains in Care, thanks to the ACA (2015)

- 600,644 Medicare Part B patients received free preventive services.

Consumer savings thanks to the ACA (Q1, 2016)

- For people with ACA Marketplace Plans
 - 203,112 people received subsidies averaging \$299/month
 - equals \$3588 in savings per person per year
- For people with Employer Group Plans
 - premium decrease from 6.9% annual growth rate in 2000-2010 to 4.2% annual growth rate in 2010-2015
 - equals \$2100 annual savings per family in 2015
 - equals \$2800 annual savings per family in 2016

All these benefits lost to Tennessee families if the ACA is repealed.
