

MARCH 2018

HIV AND RYAN WHITE NORTH CAROLINA

HIV IN NORTH CAROLINA, BY THE NUMBERS¹

29,814: the number of North Carolinians living with diagnosed HIV/AIDS in 2015.

6th in the nation in the number of new HIV diagnoses in 2016.

11th in the nation: for HIV related death rates in 2015.

61.5% of individuals diagnosed in 2016 were between age 13 and 34.

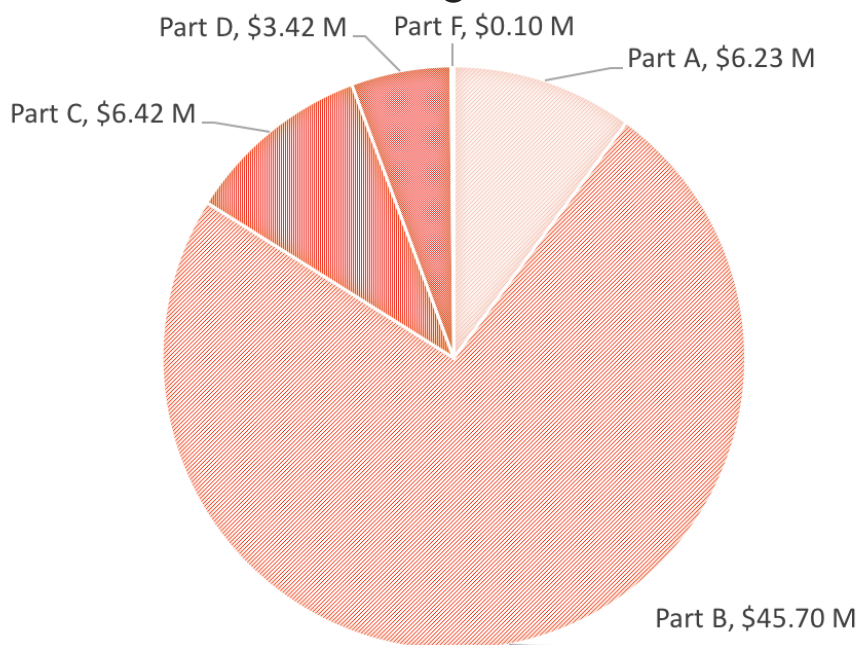

North Carolina

DEPENDS ON RYAN WHITE:²

- An estimated **15,953 North Carolinians** received services through Ryan White in 2015.
- **60.3%** were living at or below the poverty line.
- Since Ryan White is legally required to be the "payer of last resort," these people did not have other access to medical or support services.

Federal Ryan White Funding in NC³

- Part A: \$6.23M
- Part B: \$45.70M
- Part C: \$6.42M
- Part D: \$3.42M
- Part F: \$0.10M

North Carolina received **\$61.9 million** in federal Ryan White funds in 2017:⁴

- **\$23.2 million** went to ADAP.
- **\$6.2 million** went to Charlotte, the state's only city eligible for Part A funding for urban areas. As a result, Part B funding (for states) is particularly important in North Carolina.

RYAN WHITE WORKS!

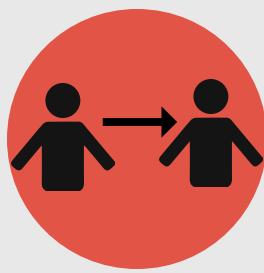

Ryan White services keep HIV-positive individuals in treatment and care

With treatment, people with HIV can live active, healthy lives.

People whose virus is suppressed for 6 months cannot transmit HIV through sex.

But, if disconnected from care, resistance to medications can develop making it easier to transmit HIV. Moreover, without treatment HIV is deadly.⁵

RYAN WHITE PROVIDES SERVICES ACROSS THE HIV CARE CONTINUUM

HIV CARE CONTINUUM:

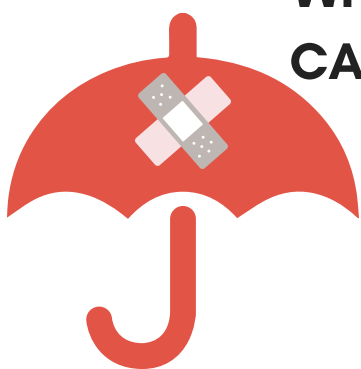

THE SERIES OF STEPS A PERSON WITH HIV TAKES FROM INITIAL DIAGNOSIS THROUGH THEIR SUCCESSFUL TREATMENT WITH HIV MEDICATION

While only **58%** of people nationwide have a viral load that is effectively suppressed as of 2014,⁶ **84.9%** of HIV-positive clients who had received at least one Ryan White funded medical care visit have achieved viral suppression.⁷

WITHOUT MEDICAID EXPANSION, NORTH CAROLINA RELIES ON RYAN WHITE MORE THAN OTHER STATES.

6,104

Ryan White program clients living with HIV in North Carolina had no insurance coverage other than Ryan White in 2015.⁸

No other program provides the same set of gap-filling services or care as Ryan White. Even after health reform, **Ryan White remains crucial for North Carolina.**
